Urdu

English

PROFESSIONAL SUMMARY

Motivated Frontend Developer and Software Engineering undergraduate with expertise in HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, and Tailwind CSS. Passionate about crafting pixel-perfect, responsive UIs. Experienced in building real-world projects—from analytics dashboards to e-commerce platforms—with emphasis on clean architecture, reusability, and performance. Seeking internship and junior frontend roles to grow within professional teams.

FRONTEND DEVELOPMENT EXPERIENCE

Frontend Development Practice & Personal Projects

2025 – Present

Self-Directed Development

- Developed [multiple responsive web applications](#) using React.js, TypeScript, and Tailwind CSS, focusing on clean UI and optimal user experience.
- Applied [React component architecture](#)—props, state management, hooks—to build scalable, reusable component libraries.
- Integrated Framer Motion animations, maintained Git workflows, and implemented REST API integration patterns.
- Practiced responsive design ensuring cross-device and cross-browser compatibility across all projects.

PROJECTS

1. BI Analytics Dashboard

[GitHub](#) | [Live Demo](#)

React.js

TypeScript

Tailwind CSS

- Built a comprehensive Business Intelligence analytics dashboard with interactive charts, data tables, and KPI metrics.
- Leveraged TypeScript for type-safe component development ensuring a robust and maintainable codebase.
- Implemented fully responsive layouts with Tailwind CSS for seamless experience on all screen sizes.

2. Image Gallery

[GitHub](#) | [Live Demo](#)

HTML5

CSS3

JavaScript

- Developed a dynamic image gallery with smooth browsing, filtering, responsive grid layout, and optimized performance.

3. Tic-Tac-Toe Game

[GitHub](#) | [Live Demo](#)

HTML5

CSS3

JavaScript

Framer Motion

- Built Tic-Tac-Toe with modern UI, smooth win/draw animations, and pure JavaScript state management for turn tracking and win detection.

4. E-Commerce Website

[GitHub](#)

HTML5

CSS3

JavaScript

- Built a modern e-commerce platform with product listing UI, shopping cart, checkout flow, and responsive pages with clean visual hierarchy.
